If painting, renovation, repairs, or moving are starting

Eliminate Uncertainty with GuardX Fleece

Water Proof

It has a special structure that prevents liquids from passing through its surface, providing 100% protection for underlying surfaces when exposed to water.

Anti-slip

It creates safe working environments with its anti-slip surface and base, this way, potential accidents are prevented ... Tasks are completed quickly.

Easy Install

Designed for quick and effortless application, saving time and labor on the job site. Simply roll it out and start protecting surfaces – no special tools or skills required.

Re-Usable

After use, it can be cleaned and reused, possessing the ability for multiple uses. This feature reduces the environmental impact of the product and lowers costs for users.

Breathable

It has a breathable structure that prevents liquids from seeping into the material while also allowing trapped humidity on surfaces to escape.

Tape-Free

Its self-adhering backing grips securely to surfaces without the need for additional tape, staying in place even on busy job sites and ensuring a clean, hassle-free installation.

Perfect for

Paint

Provides excellent protection in areas where painting is to be done. It helps to finish the job quickly by preventing paint, putty, plaster, or thinner from seeping into surfaces.

Repair

Provides excellent protection in areas designated for repair. It prevents damage to furniture, floors, and countertops from pieces poured with a drill.

Renovation

Provides excellent protection in areas where renovation is to be done. Spilled mortar, grout, stones, and other liquid materials are gathered within the product's flexible structure, facilitating easy disposal.

Moving

Provides excellent protection for spaces before moving. It prevents doors, parquet and marble floors, as well as surfaces like countertops in freshly painted, cleaned, and polished spaces from impact and scratching.

Design to Protect

Floors and Baseboards

Provides effective protection for hardwood, laminate, tile, carpet, vinyl floors and any type of wood, vinyl baseboards

Countertops

Ensures the protection of kitchen and bathroom countertops against scratches, impacts, and paint spills.

Stair Steps

Protects wooden, tile, carpeted stairs as well as handrails from scratches and impacts.

Appliances

Prevents the surfaces of appliances from getting dirty, damaged or scratched.

Sinks and Taps

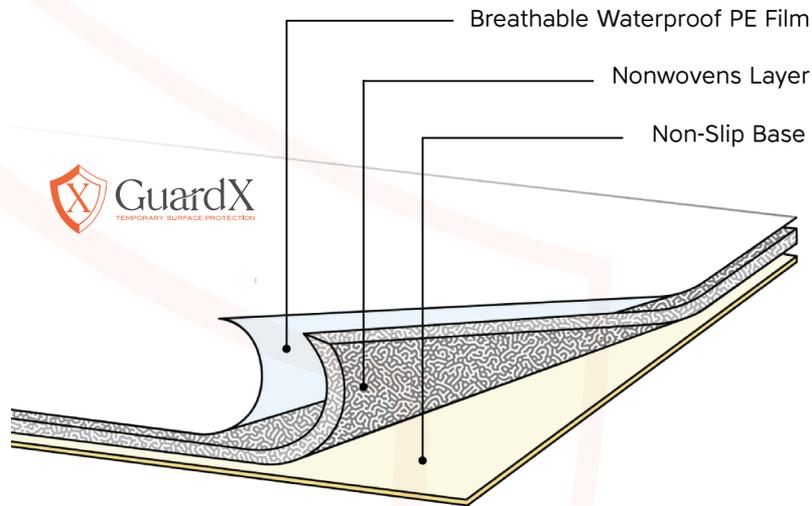

Ensures sinks, basins, and Taps remain clean and undamaged from spilled hard particles.

Toilets and Bathtubs

It is ideal for protecting toilets, bathtubs, and shower trays during painting and repair work in bathrooms.
